

# Benefits of "BOILERCO" Confidential Destruction

## SECURE

Our Ultra High-Security Grinding / Pulverization, Completely destroys all sensitive information and unused branding, safeguarding you from possible multi-million dollar losses.

## CONVENIENT

We pick-up, transport, & completely destroy all material quickly, efficiently, & discreetly. Taking this burden off of your employees allows them to concentrate on the job they were hired to do.

## COST EFFECTIVE

Outsourcing the document destruction needs of your business will save your company money. Our machines can completely destroy in minutes what it would take hours or even days to do using your own equipment & electricity.

## INCREASES SPACE

Most businesses have space & storage issues. Destroying on a regular basis frees up valuable space & eliminates the need to purchase additional storage shelves or filing cabinets. Also, eliminates possible fire hazards.

**Need Scheduled Destruction? - No Problem!**

## Why Destroy Confidentially?

Identity theft & corporate espionage are the fastest growing forms of fraud today. The most effective way of preventing a possible multi-million dollar loss is the total & complete destruction of sensitive information and unused branding, that you do not want exposed.

## What Items Should Be Destroyed?

ELECTRONICS & MEDIA

PACKAGING & LABELS

RECALLED PRODUCTS

OUT OF DATE PRODUCTS

SECURITY MATERIALS

## The Process

For organizations that require either ongoing regular destruction services or a one time "purge" of confidential material, Boilerco (Jamaica) Limited offers secure off-site destruction services. The process is tightly monitored ensuring a secure transition from the original material to the destroyed product.

### Here is How Our Process Works:

The client may drop off documents/products to be destroyed or our service truck will securely pick up the documents/products to be destroyed. *(small fee for pick-up)*

- All of our service trucks are equipped with GPS trackers so we know their location at all times.
- All trucks are equipped with a portable scale to weigh goods. *(file boxes can be provided if needed)*
- An official delivery receipt is issued.

### Pick-up OR Drop-off

### Secure

The materials then arrive at our secure destruction facility which features:

- Security fencing around ALL Destruction Areas.
- Camera surveillance.
- 24 Hour electronic security monitoring
- Confidentiality / Non-Disclosure Agreements & Background Checks in place for ALL Employees.

### Destroy

One of the Smallest Grind Sizes in the World

The materials will then be off-loaded in our secure area. Following client authorization, the materials are destroyed via Ultra High-Security Grinding / Pulverization within a scheduled time.

### Certify

Finally, an Official Certificate of Destruction will be issued once all the materials are verified by witness to be thoroughly destroyed.

*Clients are also welcome to witness the process. (by appt. only)  
- Internet Remote Viewing & Process Recording are also Available.*
